Projects

Role-Based E-Commerce Platform with Digital Product Support   Jan 2025 – June 2025
A scalable e-commerce platform supporting digital products and multiple user roles (customers, vendors, administrators) with secure transactions and optimized user management.
🔗 https://content-co.vercel.app/

Built a versatile online shopping platform using React.js, Next.js, Vite, and TypeScript with Tailwind CSS and Shadcn UI. Implemented role-based access, digital product support, and seamless user management to enhance customer experience and operational efficiency.

React.js, Next.js, Vite, TypeScript, Tailwind CSS, Shadcn UI, E-Commerce, Role-Based Access

Integrated Billing & Table Booking System   Feb 2025 – May 2025
All-in-one platform combining online menu management, table booking, billing, and kitchen inventory for restaurants and cafés.
🔗 https://nomad-brew-service.vercel.app/

Designed and developed a comprehensive restaurant management system using React.js, Next.js, Vite, TypeScript, Tailwind CSS, and Shadcn UI. Improved operations and customer experience by unifying menu, booking, and billing.

React.js, Next.js, Vite, Tailwind CSS, Shadcn UI, TypeScript, Restaurant Management, Billing System

Internal Tools – Invoice Generator & Leave Tracking   July 2025 – Sep 2025
Created internal tools to automate invoice generation and employee leave tracking for The Marble Jar.

Developed lightweight internal tools using React.js, Next.js, and Tailwind CSS to streamline administrative operations, improve accuracy, and save team time on repetitive tasks.

React.js, Next.js, Tailwind CSS, Internal Tools, Automation, Admin Efficiency

Luxury Jewelry E-Commerce Website   Mar 2025 – July 2025
A responsive e-commerce website for a jewelry manufacturing and retail company in Dubai with SEO optimization and a premium UI/UX.
🔗 https://torcap.vercel.app/

Designed and developed a high-end jewelry e-commerce site using React.js, Next.js, Tailwind CSS, Shadcn UI, and TypeScript. Integrated basic SEO features to improve search visibility and online presence.

React.js, Next.js, Tailwind CSS, Shadcn UI, TypeScript, E-Commerce, SEO Optimization, Jewelry

Hospital Revenue Cycle Management (RCM) System   Aug 2023 – April 2024
A solution to streamline hospital discharge, billing, and operational workflows to improve patient and staff experience.

Built a patient discharge and billing platform using React.js, JavaScript, HTML5, CSS3, and Bootstrap. Reduced manual processes and improved operational efficiency.

React.js, JavaScript, HTML5, CSS3, Bootstrap, Healthcare, Billing System

Intelligent Invoice Management System (IIMS)   Oct 2023 – June 2024
Automated invoice creation, tracking, and management to reduce errors and improve billing efficiency for businesses.

Developed a comprehensive invoice management solution using React.js, Tailwind CSS, Material UI, and Shadcn UI. Enhanced accuracy and efficiency in billing workflows.

React.js, Tailwind CSS, Material UI, Shadcn UI, Invoice Management, Automation
